Notes

Set Format – The new Head to Head set format which is being introduced by FITA into international competition with effect from 2010 was trialled this weekend. This format requires each archer to shoot 3 ends of 6 arrows, each end being one set. If an archer won a set then they won 2 points, if they drew each archer won 1 point and if they lost they scored 0. After 3 ends the archer with the most set points wins the match. From the quarter finals onwards the format changes to 5 sets of 3 arrows.

Final Ranking – Once an archer is knocked out they are ranked into their final position by their ranking round position.
